B2 (Ito Hall, Event Space , Foyer)**

Address : 7-3-1, Hongo, Bunkyo-ku, Tokyo, Japan, ZIP 113-0033

Organizer : RISC-V Alliance Japan

Event Planning and Promotion : SH CONSULTING K.K.

Supporting Organization :

1. RISC-V Day Tokyo Features

RISC-V Day Tokyo is the largest RISC-V event in Japan. Presentations will be made at the actual venue and exhibition booths will be held at the actual venue. RISC-V Day Tokyo aims to bring together leading RISC-V technologies and products, key persons and engineers, and to provide business opportunities for product recognition, collaboration among companies, technology exchange and information gathering. Last year's RISC-V Day Tokyo 2020 attracted a total of 1,053 participants from 11 countries (Japan, Sweden, the United States, Taiwan, France, China, Russia, the United Kingdom, Switzerland, Vietnam, and Denmark). RISC-V Days Tokyo 2022 Autumn was held concurrently with EdgeTech+ 2022, a three-day physical venue conference at Yokohama Pacifico. RISC-V Day Tokyo 2023 Summer will be held at the Ito International Research Center, University of Tokyo, in the Ito Hall, the foyer and the Event Space on the second basement floor, with conference and booths in the physical venue format. (The physical venue may be affected by the social situation of the COVIT-19.)

2. Venue, Dates and Time

3. Contents of the Event

RISC-V Day Tokyo 2023 Summer event will be presented at the physical venue. There will be no online broadcast. Video recordings of the on-site presentations and presentation materials will be made available two months later.

Sponsors are planning to set up demo booths in the foyer and the Event Space in B2.

Demo booths by sponsors are planned in the foyer and the Event Space in B2.

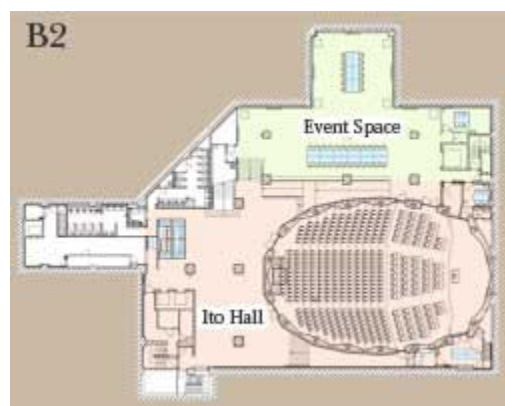

The following exposure opportunities are available to sponsors.

- **Presentations and Venue Talk Slot (Ito Hall)**
+ Video and Documentation Materials to be released 2 months later
- **RISC-V Booth (B2 Ito Hall: Foyer, Event Space)**
- **Online RISC-V Booth (Web content)**
- **Share participant list**

3.1 Presentations and Venue Talk Slot (Ito Hall)

1) **Date : June 20 (Tue) , 2023 9:00 - 20:00 JST (UTC+9)**

2) **Venue : B2 (Ito Hall,) at Ito International Research Center , The University of Tokyo**

Talk slots will be provided based on the type of sponsorship. Speakers, presentation titles, and talk topics will be introduced by the moderator. No online broadcast. We are planning to release a video and materials in two months.

(All presenters, registrants, and staff will be required to present their COVID-19 vaccination certificates. In case it is not possible to hold the conference at the venue due to COVID-19 and other unavoidable circumstances, we will switch to remote online presentation.)

B2: Ito Hall , Event Space

<https://www.u-tokyo.ac.jp/adm/iirc/ja/about.html#b2>

- Ito Hall (316 seats planned)
- Foyer, multi-purpose space (planned for 200 people)

3.2 Remote Presentations

If on-site presentations are not feasible, we offer online talk slots based on the type of sponsorship. The talk will be given remotely. Speakers will be able to connect to the delivery/conferencing system from their regular browser and broadcast the images and audio to the actual venue. The presentation will be delivered to the actual venue using zoom online conferencing.

To ensure the smooth running of the program, we plan to have two moderators, two operators, two staff members to handle questions from the audience, and two staff members to monitor the live quality.

3.3. Product Exhibits Opportunities

3.3.1 In-Person RISC-V Booth

1) Date : June 20 (Tue) , 2023 12:00 - 19:30 JST (UTC+9)

**2) Venue : B2 (Event Space , Foyer) at Ito International Research Center ,
The University of Tokyo**

1) Booth

Exhibition space 1 booth (2m x 2m = 4m²)

Side Panel

Back Panel

Demo Space : Table x 1 , Table Size: (W: 1600mm x D: 800mm x H: 720mm)

4 stacking chairs

Power supply work (2 ports take year and (100V / 500W) x 1 place)

* Including electricity usage

5. Details of Sponsorship

5.1 Participant List Sharing

Platinum and Silver sponsors will be provided with a list of participants. However, in order to comply with the European GDPR, participants will be notified in advance that the list will be shared with Platinum and Silver sponsors, and participants may opt out of this sharing. We also ask that you keep the list of participants for your own internal use and do not share it with third parties.

5.1.1 Platinum Sponsorship

1. Post the logo and company introduction on the web and press announcements
2. 30 minutes live talk , On-site or online.
3. Presentation Q&A
4. Share participant list

5. Maintain website for at least 18 months
6. Video and materials released two months later. Video uploaded to Youtube and link placed on RISC-V Association website along with the materials.
7. Free code for Peatix participation ticket: 20 people

5.1.2 Silver Sponsorship

1. Post the logo and company introduction on the web and press announcements
2. 20minutes live talk , On-site or online.
3. Presentation Q&A
4. Share participant list
5. Maintain website for at least 18 months
6. Video and materials released two months later. Video uploaded to Youtube and link placed on RISC-V Association website along with the materials.
7. Free code for Peatix participation ticket: 10 people

5.2 Free code for Peatix participation ticket at RISC-V booth

5.2.1 RISC-V booth: B2 foyer

Free code for Peatix participation ticket: 5 people

5.2.2 RISC-V booth: B2 Event Space

Free code for Peatix participation ticket: 5 people

6. Details on How To Conduct the Event

6.1 In-Person Presentation at the Venue

The presentation will be given at the actual venue. A video recording of the presentation will be made available to the public two months later.

**Fig.1 Ito International Research Center of The University of Tokyo
(RISC-V Day Tokyo 2017/12/18)**

Fig. 2 Presentation scene at Ito Hall (RISC-V Day Tokyo 2017/12/18)

6.2 Online Presentation

According to feedback from RISC-V International corporate members who are already doing online conferences, physical conferences (meetings and sessions in real conference rooms and venues) can be expected to be successful because of the presenter's and audiences' direct interactions, but online conferences require more specificity in the content and the usefulness of the content information.

1. Online speakers connect to the zoom conferencing system to provide live video and audio to the actual venue
2. We provide moderators, on-screen audio controls, live Q&A, and monitoring staff for your presentation
3. Mediates audience questions
4. Moderator invites online speaker to participate as a conference participant and facilitates introductions, presentations, and Q&A

6.3 Booth at the venue

See Above 3.3.1 In-Person RISC-V Booth

6.4 Online RISC-V Booth (Virtual Demo Booth)

Online RISC-V Booth

We will provide the Online RISC-V Booth as a paid option (the virtual booth in web page information posting, company online conference) format posted at RISC-V Day 2020 Tokyo.

The Online RISC-V Booth will be distributed to the public free of charge and advertised in advance. To promote commercial activities of RISC-V during the blockade period, individual conversations with potential customers, which were an important part of the physical conference, will be available online. RISC-V Day provides a portal site for virtual demonstration booths to attract and guide visitors to the video conference where the demonstration will be held. RISC-V Day will provide a portal site for the virtual demo booth to attract and guide visitors to the video conference where the demo will be held. The virtual demo booth provides two opportunities: a public show and an open Q&A opportunity. The other is a chance to have a private conversation with potential customers. Online RISC-V Booth portal will be created by the organizer, and the management of the demo and demo booth will be left up to each company. To see how the Online RISC-V Booth portal looks and behaves in a simulated way, please visit Day Tokyo 2020 virtual demo booth portal page:

<https://riscv.or.jp/en/riscv-day-tokyo-2020-en/virtual-booths-details/#SHC> (please note that there is a possibility of slight changes in the design).

The Online RISC-V Booth portal includes (1) a demo title at the top, (2) a brief image showing an overview of the demo, such as a block diagram, (3) a demo description, (4) a "Live Demo" button that takes attendees to the sponsor's webinar window, and (5) a "Demo PDF" button that allows attendees to download the sponsor's PDF document explaining the demo. (6) "Private Talk" button that allows attendees to send a private email to the RISC-V product supplier.

RISC-V Days Tokyo 2020 Sponsor Companies and Organizations

RISC-V Day Past Results

RISC-V Day is an opportunity for RISC-V suppliers to promote their technologies and present their RISC-V research. The purpose of RISC-V Day Tokyo is to bring together excellent technologies and products related to RISC-V, as well as key persons and engineers.

RISC-V Day Tokyo was held at the Itoh Gratitude Hall of the University of Tokyo at the request of RISC-V International (then RISC-V Foundation) in 2017, at the Hiroshi Fujiwara Memorial Hall in Hiyoshi, Keio University and IEEE Fukuoka in 2018, and at the Hitachi Baba Memorial Hall in Hitachi, Ltd. The 2020 conference was the first to be held online, with a total of 1,053 participants from 11 countries attending the two-day event.

RISC-V Days 2021 Priorities

In just five years since 2014, RISC-V has been adopted in several 5G mobile baseband chips, conquered wearables in Taiwan, Korea, and China, and is making inroads into the automotive, server, and HPC fields. The theme of the 2021 RISC-V Days is "RISC-V in 5G Mobile, Wearable, Automotive and Server HPC -- Expanding Research Areas and Applications in the Post-5G Era." APAC engineers who promote RISC-V will contribute to RISC-V locally. In Year 2021, we will continue to hold conferences in cooperation with a local engineering organization in Vietnam, incorporating new approaches.
